

## OUR MISSION

To advance research and discovery in psoriasis and related conditions. The Psoriasis Registry is a study run by FORWARD, a non-profit, patient-reported research databank for the study of chronic diseases such as psoriasis, psoriatic arthritis, rheumatoid arthritis, lupus, and other conditions.

## INTRODUCING THE NEW FORWARD

# PSORIASIS REGISTRY

- Psoriasis
- Psoriatic Arthritis

How do I participate? [www.ForwardDatabank.org/ps/](http://www.ForwardDatabank.org/ps/)

## FORWARD + PATIENTS

- FORWARD depends on patients to share their experiences with their disease, medications, and any other forms of therapy in order to conduct research on the diagnosis, treatment, and prevention of psoriasis.
- Patients who participate are not only the foundation of the databank—they have a voice in the research too.
- Patients play an important role in improving FORWARD and pushing psoriasis research to the next level.
